

Grade Level	3rd and 4th
Course Title	Botany
Tutor's Name	Melissa Grayum
Tutor's E-mail	melissa.grayum@gmail.com
Class Description	<p>I'm so excited to bring the study of Botany to your 3rd and 4th graders this year. We will be investigating God's majestic creation of plants and other living organisms. Each week we will analyze a part in God's creation and how there is meaning and purpose in it all. A few things we will do are dissect a flower, find out how a plant grows fruit, and also see how we, whatever age we are, all have a place in caring for the world around us.</p> <p>Each week the students will learn how to take notes and enjoy a small craft or experiment. Your child will also be creating their own nature journal that will include all the things we learn about each week.</p>
Text/Materials	An empty 3 ring binder, pencils, erasers, color pencils, and scissors.
Class Fee (how is it used)	\$15 for copies and activities we'll do in the class
Prerequisites	None.
Class Limit	12
Semester	Both Semesters
