

Grade Level	4-5
Course Title	Astronomy
Tutor's Name	Charlene Hoell
Tutor's E-mail	charhoell@gmail.com
Class Description	Explore the farthest reaches of God's creation with this astronomy course. With many hands-on activities to help your child retain what they learn, this class will introduce elementary-level students to the wonders of our solar system, the stars, and beyond. Our tour of the universe will begin with our sun, the planets, the asteroid belt, dwarf planets, and the Kuiper belt. Then we set off across the stars to explore galaxies, nebulae, and even black holes as they reveal the marvel and might of our loving Creator.
Text/Materials	<p>Apologia Exploring Creation with Astronomy (textbook and student notebook are BOTH required), but siblings can share a textbook, but not a student notebook.</p> <p>This textbook is now in its 2nd edition. I am OK if parents find the first edition. I will make adjustments for different page numbers.</p>
Class Fee (how is it used)	\$25 for handouts and hands-on activities
Prerequisites	None
Class Limit	12
Semester	Both Semesters
