Class Creation

Course Title	Intro to Literary Analysis
Grade Level	8-9
Tutor's Name	Kristen Weddle
Tutor's E-mail	shinybluecrayons@gmail.com

Class Description

This class will cover literary devices, elements, and themes; how to recognize and analyze them in a text, including short stories, novels, and poetry; and how to support assertions with quotations from the text in short answer essays, five-paragraph essays, and a variety of other projects.

This class will be worth 1 HS English credit.

Because this class receives credit, I expect every assignment to be turned in on time.

Parents, I will not chase your students around for homework. If they are struggling to turn things in, I expect you to step up and help them get organized. I will communicate with you and your student if there is an issue. If a student reaches three missing assignments, I will remove them from class as they are no longer able to pass.

Text/Materials

Most of the materials will be copies that I will provide. Students will need a binder, paper, writing utensil, and a copy of Wolf Hollow by Lauren Wolk.

Class Fee (and how is it used) \$15 for copies and candy

Prerequisites

Students should already know how to write an academic essay. If your student is in 8th grade and has never written a five-paragraph essay, this class may be too difficult. Please contact me if you have questions!
