### Class Description

This class is a junior version of the Agape Players Drama class. Through this class, kids will learn dance, and work on singing and acting skills while putting together a complete musical production. Rehearsals are designed to provide theater training and develop self-esteem, discipline and creativity. We will meet weekly to rehearse a musical that will be performed in April. We will also rehearse and perform a short Christmas concert that will take place on a co-op day in December. Lastly, we will participate in the Agape's Got Talent show.

There is some time commitment involved come showtime. Kids will need to be available during tech week leading up to the performance for all dress rehearsals and of course must be available for performances and strike/clean up after the final show. A full schedule will be sent over the summer.

Parent involvement is also a must. Each family is asked to sign up for a volunteer position (such as props, costumes, sets, etc.) and participate in Agape Players Drama group fall and spring fundraisers.
